A Word from the Consultant of Pakistan - Mr. Basharat Ureem

As I reflect on my journey in ministry and the vibrant landscape of Pakistan, I am filled with gratitude for the opportunity to serve in a country rich in culture, history, and faith. Pakistan is a land of contrasts, where ancient traditions meet modern aspirations. The predominant religion is Islam, which shapes the cultural and social fabric of the nation. However, within this context, there exists a significant Christian community that often faces challenges, particularly in the realm of education.

In many cases, they are marginalized and denied equal opportunities in educational settings. This is where the House of Success and the A.C.E.® (Accelerated Christian Education®) curriculum plays a pivotal role fostering student's resilience and confidence in their identity as children of God. The curriculum not only equips students with essential knowledge but also instills in them a sense of belonging and purpose amidst the challenges they face.

I was called into this ministry through a profound sense of purpose and a desire to make a difference in the lives of young people. My heart was stirred by the plight of Christian children in Pakistan, and I felt compelled to advocate for their right to a quality education that aligns with their faith. It is both a privilege and a responsibility to support these students and their families, helping them navigate the complexities of their environment while nurturing their spiritual growth.

The impact of the A.C.E. curriculum is evident in the lives of our students. Many have shared testimonies of how their education has not only prepared them for academic success but has also strengthened their faith. They are equipped to face challenges with courage and grace, knowing that they are supported by a community that values their unique identity.

As we move forward, let us continue to pray for the Christian community in Pakistan, that they may find strength and hope in their faith. Together, we can work towards a future where every child, regardless of their background, has access to an education that nurtures their mind and spirit.

House of Success

A PEEK INTO PAKISTAN'S ONLY SCHOOL USING THE CURRICULUM

Let's Hear it from the Leaders of the School!

From our humble beginning in 2017, we envisioned a school that would not only provide quality education but also foster a sense of community and resilience among our students. The road has not always been easy; we have encountered various obstacles, from resource limitations to adapting to the A.C.E. curriculum in response to the evolving educational landscape.

Despite these challenges, our commitment to our mission has only grown stronger. We have witnessed remarkable transformations in our students who have shown incredible determination and perseverance. We have created an environment where every child can thrive, learn, and develop the skills necessary for success in life. Our dedicated staff, supportive parents, and enthusiastic students have been the backbone of our journey.

- Mr. Diam Ureem (Administrator)

As the Supervisor of High School Students, I have the unique privilege of witnessing the incredible transformations that our students undergo during their time at our school. Each day, I am inspired by their growth, not only academically but also spiritually, as they navigate the challenges of adolescence in a complex environment.

Our students come from diverse backgrounds, often facing obstacles that can hinder their educational journey. However, through the A.C.E. curriculum, they have found a nurturing and supportive environment that empowers them to excel. I have seen students who once struggled with self-doubt and insecurity blossom into confident young adults, ready to take on the world. This personalized approach has proven to be a game-changer for many of our students, enabling them to achieve academic success that they previously thought was beyond their reach.

One particularly memorable moment was when a group of House of Success students organized a community outreach program to support underprivileged children in our area. Their passion and commitment to serving others were a testament to the values they have embraced during their time at our school. It is heartening to see them step into leadership roles, driven by a desire to make a positive impact in their communities.

- Mrs. Sheeba Ureem (Supervisor)

Encouraging Testimonies of God's Grace and Love

Shalim Kamran; Level 9

Hi, I'm Shalim, and I am in Grade 9. I want to tell you how House of Success has changed my life. Before I joined this school, I struggled with my studies and felt lost. I didn't know how to study effectively, and I often felt overwhelmed, but the A.C.E. program has taught me how to manage my time and learn independently.

The subjects are engaging, and I appreciate that I can set my own goals. I've improved my grades significantly, and I am now preparing for my upcoming exams with confidence. Beyond academics, the spiritual aspect of the curriculum has been life-changing for me. I have learned to pray and trust God in my daily life. I feel like I have a purpose, and I am excited about my future. I hope to pursue a career in business, and I know that the foundation I am building here will help me achieve my dreams.

Bazliel Qammar; Level 11

Hello, my name is Bazliel, and I am in Grade 11. As I approach graduation, I want to reflect on my journey at this school and how House of Success has shaped me. When I first entered high school, I was unsure of myself and my abilities. However, the supportive environment and the emphasis on individual learning have helped me grow tremendously.

The A.C.E. curriculum not only prepared me academically but also equipped me with essential life skills. I have learned how to think critically, manage my time effectively, and work collaboratively with my peers. I am proud to say that I am now one of the top students in my class.

House of Success

Encouraging Testimonies of God's Grace and Love

Testimony from Parent - Mr. Rizwan John:

As a parent of two children enrolled in House of Success, I want to take a moment to share my heartfelt testimony about the incredible impact that the A.C.E. curriculum has had on our family. When we first considered enrolling our children, we were looking for a safe and nurturing environment where they could receive a quality education rooted in Christian values. What we found has exceeded our expectations in every way.

My eldest daughter, who once struggled with self-esteem and academic challenges, has blossomed into a confident learner. The personalized approach has not only helped her improve her grades but has also ignited a passion for learning that I had never seen before. She now approaches her studies with enthusiasm and curiosity, and it fills my heart with joy to see her thrive.

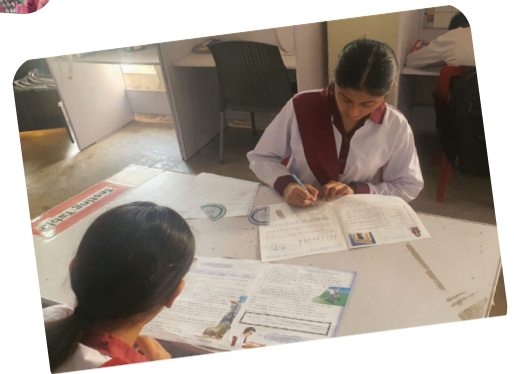

One of the most touching moments for me was when my younger child participated in a school service project. She was eager to help others and was genuinely excited about making a difference in our community. It was a beautiful reminder of the values being instilled in her at school—values of compassion, service, and love for others.

Prayer Requests

- ◇ To increase enrollment: A new school building will accommodate more students, expanding access to education for children who are eager to join but are unable to because of lack of space.
- ◇ To empower the community: Educated individuals are more likely to contribute positively to their community and break the cycle of poverty.
